Oklahoma Medicaid Pharmacy Update

Pharmacy Help Desk Telephone Numbers 405-271-6349 or 1-800-831-8921
Email: medicaidrx@ohca.state.ok.us OHCA Website www.okhca.org

Dear Pharmacy Provider,

Please be aware that prescribers of Plavix® may be writing "Stent" on their prescriptions. If you see this on the face of a valid prescription you may

1) enter it in the diagnosis field of the prior authorization form and send the completed form in for prior authorization review; or
2) complete the top portion of the petition, including the pharmacy and patient information, and attach a copy of the prescription.

Either method may be used without sending the petition to the prescriber for additional information.

Cardiology Services
Best Hospital
Anytown, Oklahoma

Patient Name Sally Sue Stent Date 11-3-05

RX: Plavix 75mg
#30
i q d

Dx: Stent Dr. Hart

Additionally, please remember that a three-day supply of medication will be approved as an emergency prior authorization when there is a potential for delay in completing the necessary paperwork. A phone call to the pharmacy help desk is all that is required to initiate an emergency authorization.

Thank you for your continued service to Oklahoma's Medicaid clients.
