Contracts Developed with Provider Input

Providers with the *SoonerCare* program gave input that was used in preparing the 2005 agreement in accordance with contractor suggestions. Major revisions were incorporated in the capitated benefit package, according to Rebecca Pasternik-Ikard, *SoonerCare* and Care Management Services director.

At providers' request, all capitated x-ray services from the current contract were removed for 2005. Capitated laboratory services were reduced to include a limited number of procedures that are waived in the Clinical Laboratory Improvement Amendments (CLIA) program.

***SoonerCare* Contracts Due Into *SoonerCare* By December 10.**

Providers can ensure that their member enrollment continues uninterrupted by completing and returning all 2005 contracts no later than December 10, 2004. For questions regarding contracts, contact individual provider representatives at the OHCA at (405) 522-7300. For specific questions regarding contracts, contact Bernadette Skillmore at (405) 522-7554.

EPOCRATES comes to the OHCA!

The Oklahoma Health Care Authority and ePocrates References are leading the way to reduce physician hassles and improve quality of care. Personal Data Assistants (PDAs) bring critical information directly to the point of care between physicians and patients. The Epocrates integrated drug list and drug information product gives prescribers access to drug information at the point of care. This is essential in enhancing patients' quality of care. It makes looking up drug information quick and painless. It allows physicians to prescribe alternatives immediately.

Download the free ePocrates software to your PDA at www.epocrates.com then click on "ePocrates Rx FREE". Check it out today!
